## **THE OCEAN BASINS AND MARGINS**

Volume 1: The South Atlantic • 1973

Volume 2: The North Atlantic • 1974

Volume 3: The Gulf of Mexico and the Caribbean • 1975

In preparation:

Volume 4: The Mediterranean

Volume 5: The Arctic Ocean

Volume 6: The Indian Ocean

Volume 7: The Pacific Ocean

# **THE OCEAN BASINS AND MARGINS**

**Edited by**

**Alan E. M. Nairn**

## **CONTENTS**

### ***Chapter 1. Physiography of the Gulf of Mexico and Caribbean Sea***

Elazar Uchupi

I. Introduction . . . . .	1
II. Gulf of Mexico . . . . .	2
A. General . . . . .	2
B. Terrigenous Province . . . . .	2
C. Carbonate Province . . . . .	17
III. Caribbean Sea . . . . .	22
A. General . . . . .	22
B. Northern Boundary . . . . .	23
C. Eastern Margin . . . . .	26
D. Southern Margin . . . . .	32
E. Venezuela Basin–Beata Ridge–Colombia Basin . . . . .	37
F. Nicaragua Rise–Cayman Trough–Cayman Ridge . . . . .	41
G. Western Caribbean . . . . .	45
IV. Summary . . . . .	46
V. Origin and Evolution of the Gulf of Mexico and the Caribbean Sea	49
Acknowledgments . . . . .	53
References . . . . .	53

### ***Chapter 2. Geophysical Studies in the Gulf of Mexico***

Ray G. Martin and J. E. Case

I. Introduction . . . . .	65
II. Abyssal Gulf of Mexico . . . . .	68

III. Continental Margins . . . . .	80
A. Northern Gulf of Mexico . . . . .	80
B. Western Gulf of Mexico . . . . .	84
C. Carbonate Platforms . . . . .	88
IV. Seismicity of Gulf of Mexico . . . . .	95
V. Origin of the Gulf of Mexico . . . . .	97
A. Continental Foundering or Oceanization . . . . .	97
B. Phase Changes . . . . .	97
C. Rifting and Spreading . . . . .	98
D. Ancient Ocean Basin . . . . .	99
VI. Summary . . . . .	99
References . . . . .	101

### *Chapter 3. Geophysical Studies in the Caribbean Sea*

#### J. E. Case

I. Introduction . . . . .	107
II. General Crustal Structure . . . . .	108
III. Seismic Reflection . . . . .	112
IV. Gravity Anomaly Field . . . . .	114
V. Seismicity . . . . .	114
VI. Heat Flow . . . . .	120
VII. Geophysical Data in the Caribbean Region . . . . .	120
A. Colombian Basin . . . . .	122
B. Beata Ridge . . . . .	127
C. Nicaraguan Rise . . . . .	127
D. Cayman Trench–Cayman Ridge . . . . .	133
E. Yucatan Basin . . . . .	138
F. Yucatan Borderland–Yucatan Channel . . . . .	138
G. Cuba and Vicinity . . . . .	143
H. Hispaniola . . . . .	143
I. Puerto Rico Trench . . . . .	144
J. Muertos Trough . . . . .	146
K. Anegada Passage and Vicinity . . . . .	149
L. Lesser Antillean Arc . . . . .	150
M. Grenada Basin–Aves Ridge . . . . .	154
N. Southeast Corner of Caribbean . . . . .	154
O. Venezuelan Basin . . . . .	156
P. Venezuelan Borderland . . . . .	158
Q. Geophysical Studies in Northern South America . . . . .	166
VIII. Summary . . . . .	169

Acknowledgments . . . . .	173
References . . . . .	173

**Chapter 4. Basement Rocks Bordering the Gulf of Mexico and the Caribbean Sea**

Philip O. Banks

I. Introduction . . . . .	181
II. Southeastern United States . . . . .	183
A. Florida and Georgia . . . . .	183
B. Alabama and Mississippi . . . . .	184
III. The Ouachita System . . . . .	185
IV. Mexico . . . . .	186
V. Nuclear Central America . . . . .	188
A. Chiapas . . . . .	188
B. Guatemala . . . . .	188
C. British Honduras . . . . .	189
D. Yucatan . . . . .	189
E. Honduras and Nicaragua . . . . .	190
F. Bay Islands . . . . .	190
VI. Southern Central America . . . . .	191
VII. Colombia . . . . .	191
VIII. Venezuela . . . . .	192
A. Venezuelan Andes . . . . .	192
B. Caribbean Mountain System . . . . .	192
C. Guyana Shield . . . . .	193
IX. Antilles . . . . .	194
X. Summary . . . . .	195
References . . . . .	196

**Chapter 5. The Ouachita and Appalachian Orogenic Belts**

Philip B. King

I. Introduction . . . . .	201
II. Craton North of the Orogenic Belts . . . . .	204
A. Negative Areas . . . . .	204
B. Positive Areas . . . . .	204
C. Arbuckle–Wichita Belt . . . . .	204
III. Appalachian Orogenic Belt . . . . .	205
A. Valley and Ridge Province . . . . .	205

B. Intermediate Province . . . . .	207
C. Piedmont Province . . . . .	208
D. Buried Extensions of Appalachian Belt . . . . .	209
E. Orogenic History . . . . .	209
IV. Ouachita Orogenic Belt . . . . .	210
A. Exposed Parts of the Ouachita Belt . . . . .	212
B. Concealed Parts of the Ouachita Orogenic Belt . . . . .	226
V. Paleozoic of Northeastern Mexico . . . . .	233
VI. The Florida Element . . . . .	236
References . . . . .	237

***Chapter 6. Tectonic Evolution of the Southern Continental Margin of North America from a Paleozoic Perspective***

James Helwig

I. Introduction . . . . .	243
II. Paleogeographic Evolution . . . . .	244
III. Tectonic Evolution . . . . .	246
IV. Discussion . . . . .	251
V. Conclusion . . . . .	252
Acknowledgments . . . . .	253
References . . . . .	254

***Chapter 7. Geological Summary of the Yucatan Peninsula***

E. Lopez Ramos

I. Introduction . . . . .	257
II. Surface Geology and Geomorphology . . . . .	264
A. Geological Column . . . . .	264
B. Upper Cretaceous Rocks . . . . .	265
C. Lower Paleocene–Eocene . . . . .	266
D. Middle and Lower Eocene . . . . .	266
E. Upper Eocene . . . . .	266
F. Oligocene . . . . .	266
G. Miocene . . . . .	266
H. Miocene–Pliocene . . . . .	267
I. Pleistocene–Holocene . . . . .	267
III. Subsurface Geology . . . . .	267
A. Basement . . . . .	267
B. Red Beds . . . . .	270

C. Cretaceous . . . . .	272
D. Tertiary . . . . .	276
IV. Submarine Geology Adjoining the Peninsula . . . . .	277
V. Metamorphic and Igneous Rocks . . . . .	278
VI. Tectonics . . . . .	278
VII. Conclusions . . . . .	279
Acknowledgment . . . . .	280
References . . . . .	280

***Chapter 8. Paleozoic and Mesozoic Tectonic Belts in Mexico and Central America***

Gabriel Dengo

I. Introduction . . . . .	283
II. Regional Setting and Tectonic Units . . . . .	285
A. Mexico . . . . .	285
B. Central America . . . . .	289
III. Paleozoic Tectonic Belts of Mexico and Northern Central America	291
A. Paleozoic Metamorphic Rocks of Mexico and Northern Central America . . . . .	291
B. Paleozoic Sedimentary Rocks of Mexico and Northern Central America . . . . .	297
C. Paleozoic Deformational and Igneous Episodes . . . . .	302
D. Tectonic Belts . . . . .	304
IV. Mesozoic Tectonic Belts of Mexico and Central America . . . . .	305
A. Mexico and Northern Central America . . . . .	305
B. Southern Central America . . . . .	314
V. Paleozoic and Mesozoic Tectonic Belts of Mexico and Central America and Global Tectonics . . . . .	317
References . . . . .	319
Maps . . . . .	323

***Chapter 9. The Northern Termination of the Andes***

Reginald Shagam

I. Introduction . . . . .	325
II. Outline of Previous Work and Scope of the Paper . . . . .	326
III. Terminology . . . . .	328
IV. Geologic History . . . . .	328
A. The Venezuelan Andes . . . . .	328
B. Cordillera Oriental of Colombia and the Perijá Mountains .	336

C. Cordillera Central . . . . .	345
D. Sierra Nevada de Santa Marta . . . . .	352
E. Cordillera Occidental and Pacific Coast Range . . . . .	357
F. Intermontane Areas . . . . .	360
V. Tectonic Indicators . . . . .	361
A. Stratigraphic and Sedimentary Evidence . . . . .	362
B. Thermal Events and the Orogenic Concept . . . . .	367
C. Petrologic Criteria . . . . .	373
D. Structural Geology . . . . .	375
E. Nature and Mechanics of Faulting . . . . .	375
F. Geomorphologic and Pleistocene Criteria . . . . .	386
G. Geophysical Criteria . . . . .	388
VI. Integrated Hypotheses of Tectonic Evolution of the Northern Andes . . . . .	392
A. Problem of the Threefold Division of Tectonic Environments in Four-Dimensional Space . . . . .	403
B. Problems of Orogenic Style and Superimposition . . . . .	405
C. Problems of the Interrelationships between the Three Major Geotectonic Divisions . . . . .	407
Acknowledgments . . . . .	414
References . . . . .	415

#### *Chapter 10. Geology of the Caribbean Crust*

Paul J. Fox and Bruce C. Heezen

I. Introduction . . . . .	421
II. Beata Ridge . . . . .	425
III. Aves Ridge . . . . .	432
IV. Lesser Antilles . . . . .	444
V. Puerto Rico Trench . . . . .	451
VI. Concluding Remarks . . . . .	460
Acknowledgments . . . . .	463
References . . . . .	464

#### *Chapter 11. The Lesser Antilles and Aves Ridge*

John Frederick Tomblin

I. Introduction . . . . .	467
A. Summary of Physiographic and Structural Units . . . . .	467
B. Brief History of Research in the Region . . . . .	469

II. Volcanic and Sedimentary History of the Main Arc Ridge . . . . .	470
A. Pre-Tertiary . . . . .	470
B. Eocene–Oligocene . . . . .	471
C. Miocene . . . . .	473
D. Plio-Pleistocene . . . . .	474
III. Petrography and Geochemistry of the Igneous Rocks . . . . .	476
A. Mineral Assemblages and Rock Textures . . . . .	476
B. Major-Element Geochemistry . . . . .	477
C. Trace Elements . . . . .	481
D. Isotopic Studies . . . . .	482
IV. Barbados . . . . .	484
V. The Aves Ridge . . . . .	485
VI. Geophysical Studies . . . . .	487
A. Gravity . . . . .	487
B. Magnetic Anomalies . . . . .	488
C. Seismic Refraction and Reflection Studies . . . . .	488
D. Seismicity . . . . .	490
VII. Subduction and Magma Genesis . . . . .	494
References . . . . .	497

### *Chapter 12. The Geology of Hispaniola*

Carl Bowin

I. Introduction . . . . .	501
II. Geography . . . . .	501
III. General Geology and Structure . . . . .	505
IV. Stratigraphy . . . . .	510
A. Pre-Middle Albian Metamorphic and Nonmetamorphic Rocks	510
B. Cretaceous . . . . .	512
C. Paleocene to Eocene . . . . .	517
D. Oligocene . . . . .	520
E. Miocene . . . . .	521
F. Pliocene–Quaternary . . . . .	522
V. Igneous Rocks . . . . .	525
VI. Radiometric Ages . . . . .	531
VII. Gravity Anomalies . . . . .	533
VIII. Seismicity . . . . .	537
IX. Evolution of Hispaniola . . . . .	539
Acknowledgments . . . . .	549
References . . . . .	550

*Chapter 13. Geology of Cuba*

Georges Pardo

I. Introduction . . . . .	553
II. Regional Setting . . . . .	554
III. Major Geophysical Features . . . . .	556
A. Gravity . . . . .	556
B. Magnetics . . . . .	556
IV. Stratigraphy . . . . .	559
A. General Description . . . . .	559
B. Central Cuba . . . . .	561
C. Western Cuba . . . . .	577
D. Eastern Cuba . . . . .	586
V. Metamorphism and Intrusions . . . . .	589
VI. Structures . . . . .	592
A. Central Cuba . . . . .	592
B. Western Cuba . . . . .	603
C. Eastern Cuba . . . . .	605
VII. Stratigraphic and Structural Development . . . . .	606
A. Pre-Middle Jurassic . . . . .	606
B. Middle Jurassic to Neocomian . . . . .	607
C. Neocomian to Santonian . . . . .	608
D. Campanian and Maestrichtian . . . . .	609
E. Paleocene and Middle Eocene . . . . .	609
F. Post-Middle Eocene . . . . .	612
VIII. Conclusions . . . . .	612
References . . . . .	613

*Chapter 14. Geology of Jamaica and the Nicaragua Rise*

Daniel D. Arden, Jr.

I. Regional Setting . . . . .	617
A. Geographic Names . . . . .	617
B. Location and Physical Geography . . . . .	618
C. Geological Investigations . . . . .	619
II. The Crust of the Nicaragua Rise . . . . .	619
A. Geophysical Evidence . . . . .	619
B. Structural Framework of Jamaica . . . . .	624
III. Pre-Cretaceous History . . . . .	629
A. Origin of the Nicaragua Rise—Modern Theories . . . . .	629
